### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chad Wells on 9/1/2009.

- a. In claim 1, line 9, after gas, inserted ",the abutment is formed with a recess in its side facing the container to allow said bulge".
- b. Cancelled claim 3.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The method of filling and sealing a package duct comprised of clamping a container, and filling a duct with a gas, while providing an abutment surface which provides a recess thereby allowing for expansion is distinguished over the cited prior art combination of Gautier, Shaw and Powell which does disclose an abutment surface and recess, but instead of providing for expansion during filling, utilizes the abutment to engage the container in a sealing manner, while using a suction means to draw open the container prior to filling.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3721

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
